

## – Project Showcase Series

<b>Location:</b>	Mosman
<b>External Finishes:</b>	Weatherboard
<b>Rooms Added:</b>	Master Bedroom with Ensuite, Guest Bedroom with Ensuite and 3rd Bedroom

### Project Brief

On the recommendation of a local Architect that “something special could be created” with the existing structure of their lovely cottage, the Client approached Cape Cod to create such a design. The brief was for an addition that would maintain the home’s traditional style and character, whilst providing the owners with all the space they needed and introducing modern comforts.

### The Result

Achieving a perfect integration of old and new, the detail of the window hoods, weatherboard, verandahs and roof lines leave people surprised and astounded by the transition. With three new bedrooms, 2 bathrooms and lots of storage, each child now has their own Bedroom along with their own study space upstairs. In addition a total makeover of the ground floor and basement provided a larger Master bedroom with Ensuite, a Guest Bedroom and Bathroom, and a Rumpus Room in the basement.

### Client Comments

*‘Overall, we are very happy with the process and the completed build.’*
