

– Project Showcase Series

AFTER

BEFORE

Location:	Clovelly
External Finishes:	Harditex & Weatherboard
Rooms Added:	Master Bedroom with Ensuite, 2nd Bedroom and Balcony

Project Brief

The owners of this century old Clovelly semi wanted a home that would be larger and more functional. More importantly, the addition had to maximise the potential of the location, and be with inherent quality and substance.

The Result

This “quirky” Semi in a highly sought after part of town has been transformed from a *renovators delight* into a completed dream home. In the clients own words *‘When all is said and done the design brief was met absolutely. In fact they exceeded it and the finished result is better than we could ever have imagined.’*

Client Comments

‘It is a dream house, an amazingly beautiful place. From the street it is still a tiny little cottage in keeping with the neighbourhood, but when you walk in it is a surprise. The deeper you go the more it opens up with more and more space to explore and discover.’
